DETAILED ACTION

The amendment filed 09 June 2003 has been entered.

The amendment overcomes the rejections of claim 1-10.

Allowable Subject Matter

1. Claims 1-10 and 20-25 are allowed.
2. The following is an examiner's statement of reasons for allowance: Regarding independent claims 1, 8, 9, 20, and 24, the prior art of record neither shows nor suggest an incandescent lamp comprised of, in part, a filament, lead wire having a generally circular cross sectional shape (or non-flattened portion for claims 20 and 24) with a flattened outer end, and an envelope surrounding said filament and at least a position of said lead wire that includes said flattened outer and wherein the flattened outer end includes a narrow profile and a wide profile and is oriented such that said narrow profile is aligned with the direction of illumination of light emitted by said filament.

Regarding independent claim 4, the prior art of record neither shows nor suggest an incandescent lamp with a lead wire with a wide profile of the flattened outer end of the lead wire has a surface including a non-reflective surface feature, along with the other limitations of the claim.

Due to their dependency, claims 2-7, 10, and 21-23 are necessarily allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
